

Technical Consultancy Services

OPUS Consultants

Pioneering Sustainability Solutions and
Redefining the Boundaries of Innovation

Unlocking Potential with Tailored Technical Solutions

At OPUS, we provide technical engineering consultancy specialist services. The services range from the provision of just one aspect: e.g. Feasibility study, through the full range of technical consultancy services. The services may be flexible to tailor-made according to the project needs and client's budget.

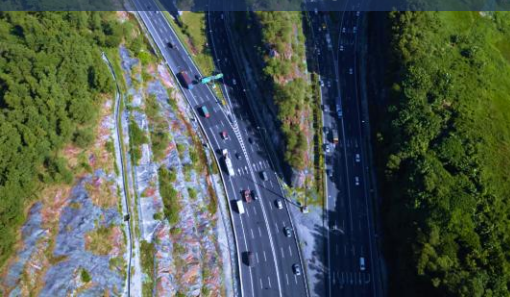

- Feasibility study
- Master planning
- Design concept/ design brief
- Preliminary Engineering Design (PED)
- Detailed Engineering Design (DED)
- Tender & evaluation
- Project implementation
- Privatisation proposals and institutional reform
- Project Information System
- Building Information Modelling (BIM)

With our dedicated team of experienced engineers, coupled with our cutting-edge hardware and state-of-the-art design software, We are committed to deliver our services to meet our Clients' objectives.
