**OPUS Consultants**

Pioneering Sustainability Solutions and  
Redefining the Boundaries of Innovation

## Designing the Future of Safe and Efficient Travel

Roads provide transportation and communication links between places and societies since ancient time. Consequently, civilisations are formed, developed and fostered with the aid of road networks.

Unlike the earlier roads, modern roads are constructed to a much higher standard to provide safety and comfort. A carefully planned road network can blend between modern technology and nature; saving construction and transportation cost, generating better economic growth, and enhancing lifestyles.

### OUR SERVICES

We ensure our designs conform to prescribed standards, providing the highest level of safety and driving comfort, while also ensuring cost effectiveness and aesthetics appeal throughout all stages, from planning to project handover.

Our services include:

- Road & Highway Geometry
- Interchanges
- Junctions
- Roundabouts
- Geometric Reprofilng of Rehabilitation Works
- Road Furniture & Road Marking
- Earthwork and Platform Design
- Building Information Modelling (BIM) Level of Detail 300 (LOD 300)

**OPUS** partners with you to identify the most cost-effective comprehensive highway design approach that meet funding limitations, focusing on enhancing the safety of road networks through innovative and sustainable practices.

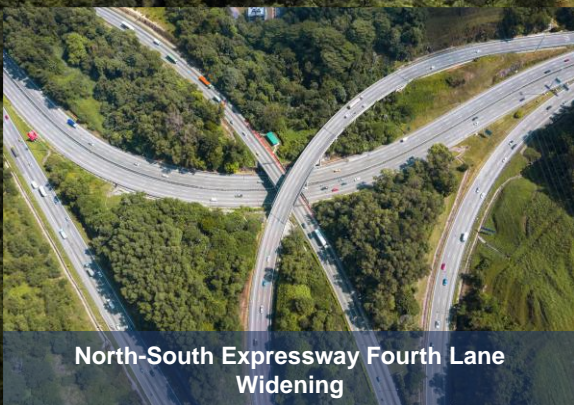

**With our dedicated team of experienced engineers, coupled with our cutting-edge hardware and state-of-the-art BIM ready design software, We are committed to deliver our services to meet our Clients' objectives.**

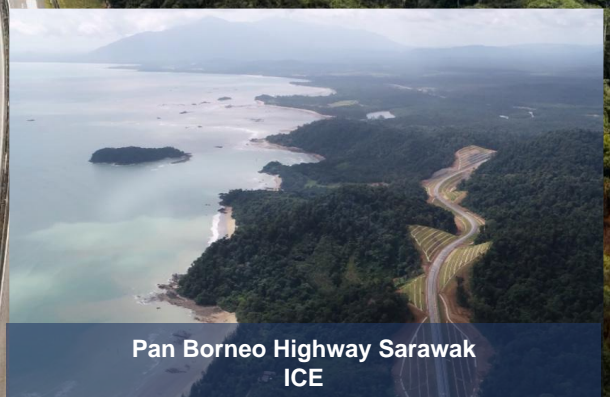

## Where Innovation Meets the Open Road

### Why Choose OPUS

- Our team consists of certified professionals with extensive experience providing innovative solutions tailored to your specific needs.
- We deliver integrated approach ensures that every aspect of our project is handled with care and precision, resulting in seamless execution from concept to completion.
- Our dedication to quality is unwavering, ensure that all projects meet stringent safety standards and delivered on time and within budget.
- We believes in fostering strong partnerships with all stakeholders, leading to better decision-making and successful outcomes.
